County Books In Good Shape, Auditor Finds

Two Consolidations Of County Offices Recommended In Report Officers Commended for Business-like And Accurate Records

In rendering their report of examination and audit of the county's fiscal affairs today, L. M. Strain and Company, accountants of Sacramento, recommend that the offices of sheriff and coroner, and of public administrator and district attorney be consolidated. This latter consolidation was recommended also by the last grand jury.

It is estimated that if these four county offices were merged into two, the county would save at least $1,500 a year.

In their report on county offices and officers the auditors state:

County Clerk and Auditor:..The books of this office formed the base for the prosecution of the audit and were found to be in excellent condition. All monies received were properly accounted for and all warrants drawn were properly approved and recorded. The warrants were also examined for mathematical accuracy, and no errors of any consequence were found. This is a great improvement over the two previous years, for which we presented a scredule of errors in warrants. We are pleased to note this increase in efficiency, and due credit should be given to Mr. McCormack and assistants.

Treasurer and Tax Collector:— The books of this office were also found to be in very good condition. The cash was counted during the course of the audit and reconcilliation made back to June 30, 1933, the closing date of the period under review. We found no discrepancies of any consequence. Mr. Steel and deputy should also be given credit for excellent efficiency.

Assessor—Nothing ..was ..found wrong with the books of this office. The tax rolls were in good condition and all personal property taxes collected were turned into the treasury with the net result of an overpayment of 20 cents.

Justice Courts—The books of the three justices of the peace were examined and all monies reported collected by them as supported by their dockets were paid into the treasury. Exception is made to this in the case of the late Justice Ocker, who turned in several hundred dollars more than his docket called for. Since he died before the audit was made, we had no recourse for an explanation of the discrepancies, and inasmuch as he was over and not short, we overlooked his apparent errors of omission from his dockets. His successor, however, should be instructed in the property use of his dockets and fee book.

Sheriff—No fault was found with the books of this office. All fees and fines reported collected were paid into the treasury, and the record of meals for prisoners was justified and supported by the jail register. We were pleased to note that our recommendation of last year, in reference to the county being billed direct for meals instead of paying the sheriff for them, was put into effect.

Recorder—All fees collected by this office were paid into the treasury, no errors were found, and the books were in excellent condition.

Public Administratrix—There was little activity in this office as far as the estates of deceased persons were concerned. Schedule 2, shows quite a number of old estates in the Treasurer's books and none of which are shown on the books of the public administratrix.

County Hospital—All monies reported collected by this department were paid into the treasury, and an omission of $60 reported by us last was also paid in.

County Farm—The books of this department were poorly kept, and in only four out of the twelve months were amounts chargeable to the county hospital in agreement with the amounts of the warrants drawn therefore. There were also numerous errors in extensions and footings, the net effect of which served to overstate the revenue of the farm and the expense of the hospital. The foregoing were, of course, all internal transactions, and the county neither lost or gained thereby.

Superintendent of Schools— The books of this office were in excellent condition, and in exact agreement with the books of the county auditor. All monies collected were properly accounted for, and due credit should be given Mrs. Austin for the efficient manner in which she has handled the clerical work of her office.

RECOMMENDATIONS

We found that proper discretion was not, in our opinion, being exercised in reference to the purchases of supplies for indigents. The details of the warrants disclose that many luxuries are being purchased as well as food of doubtful nutritive value. We wish to refer you to our report of last year in which this condition was fully discussed and a remedy suggested in the form of a printed food chart to be furnished to vendors stating just what foods the county would contract to pay for, and thus obviously excluding all other foods.

After careful consideration we wish to recommend the consolidation of the following offices:

1. District attorney and public administrator.

2. Sheriff and coroner.

In the former case there would be a saving to the county of $400 per annum in salary, and, inasmuch as the district attorney takes care of all legal matters in connection with the public administrators office. If the records were all in his care, he would be kept in closer touch with all the transactions.

In the latter case a saving of $10 per inquest would be affected, as well as a saving in mileage, since the sheriff also attends the inquest and receives pay for mileage. During the period under review there were forty-four inquests and the sheriff instead of the coroner could hold the inquest without any additional compensation or expense. Provision for the consolidation of the above officers is found in section 4017 of the Political Code of 1931.

The financial statement complied by the auditors shows Nevada County receipts for the fiscal year ending June 30, totaled $437,752, and this included among other items the following:

Total taxes	$270,832
Licenses, beverage,	467
Fines, justice courts,	4,639
Franchise, Sierra Pacific Power Co.	461
Interest receipts	3,502
Subventions & grants	115,519
County hospital revenue	2,446
County farm revenue	3,030
County fees	5,538
Inheritance taxes	898

U. C. DILL PICKLE CRACKS DOWN ON GEN JOHNSON

Miss Helen Chapman, daughter of Dr. and Mrs. C. W. Chapman, a student in the University of California, has been elected to the Theta Sigma Chi, intercollegeate journalist honor fraternity. She has just become a member of the "Dill Pickle" staff, an annual publication of the women of the University, which corresponds to the men's "Raspberry."

The "Dill Pickle" was issued last week. It's lead story has national significance in that it deals with General Hugh Johnson, NRA administrator, and his efforts to find a reason for coming West in the near future. The Dill Pickle story is to the effect that Gen. Johnson, through friends, approached Prof. Max Radin, of the University legal department, and president of the scholastic honor society, Phi Beta Kappa, stating that he (Gen. Johnson) would like to be made an honorary member of the organization with the privilege of wearing the coveted gold key emblem of Phi Beta Kappa.

Arrangements to confer this honor on the general were speedily made and it is understood that he will leave shortly for the coast and that he will appear at the University for the ceremonies.

The "Dill Pickle" implies that the general only desired a good reason for visiting the coast for political purposes, without appearing to do so. The Phi Beta Kappa cereminial, according to the "Dill Pickle," affords the good general this opportunity.

POST OFFICE SERVICE FACILITIES IMPROVED

Postmaster Phil Scadden is making several improvements in the service facilities of the local post office. The money order, insurance and registered mail will be in charge of Miss Meservey, assistant postmaster. Her window has been transferred to the right wall of the post office as one enters. This change required several alterations in the postoffice. The alterations are made in time for the Christmas rush.

New tiers of boxes will probably be ordered soon, as Postmaster Scadden reports that for the first time in the history of the office every box available has been rented, an aggregate of nearly 800 boxes now being in use.

Shop and mail early is the urgent advice of the postmaster to all gift givers during the Christmas season.

Valley Council Aids To Take Kinks Out Of Downieville Road

The Sacramento Valley Council of the State Chamber of Commerce, which met Friday in Sacramento, with a large delegation from Nevada county in attendance, passed a resolution unanimously asking the State Highway Commission to appropriate $25,000 for taking out some of the kinks in the Nevada county portion of the Downieville highway. Originally $30,000 had been appropriated for this purpose along the entire highway, but owing to the character of the Sierra county portion of the highway, this money was diverted to complete that work.

The Council also gave its assistance to Nevada City's project for an airport on top the level table of Cement Hill.

Sitting in with the highway committee of the Council, Mayor Bennetts of this city met with a hearty response to his request that a substantial sum be set aside for the Nevada county part of the Downieville highway. He called attention to the fact that the nature of the work would require a large proportion of manuel labor, thereby relieving the unemployment conditions in this county.

It was announced that the work on the eastern end of the Tahoe-Ukiah highway, is already 10 per cent completed, and that the work is being rushed during the present favorable weather conditions.

Judge Nugent of Sierraville, fearing to tackle the road between the North Yuba and Nevada City, got up at 2:30 in the morning and motored to Sacramento Via Reno. He was two hours late in arriving at the conference.

The delegates from Nevada county attending the meeting were:

Mayor R. J. Bennetts, William H. Griffiths, secretary of the Nevada City Chamber of Commerce; Mrs. C. E. Parsons, Forest Supervisor R. L. P Bigelow of Nevada City, and Harold W. Robinson of Grass Valley, Judge Nugent of Sierraville; Ernest Innes of Sierra City and Supervisor Andrew Modglin of Scales, Sierra county were also in attendance.

SCHOLARSHIP FEDERATION IS NEV. CITY GUEST

By THE CUB REPORTER

The California Scholarship Federation delegates opened their annual convention Saturday morning in Nevada City. The delegates began arriving at the high school for registration early in the day and at 10:30 a round table discussion was held. Cecilia Woods, of Nevada City, took the minutes of the meeting which lasted until twelve o'clock when it was adjourned for lunch. Shortly after the adjournment, everyone had arrived at Schreiber's Cafe where a fine meal was enjoyed. That is, everyone except the Roseville delegation, which had lost its way somewhere in the winding alleys of Nevada City. After lunch at which the Roseville delegation arrived in time for desert, Miss Carter the home chapter's advisor, led the caravan of auto's filled with students through the mill of t,he Empire mine which was examined thoroughly. From there the excursionists betook themselves to the Grass Valley Memorial Park club house where Miss Tremaine and Mrs. Keckeley served hot dogs and marshmelliws to the hungry mob.

From the club house, the delegation returned, respectively to Stockton, Sacramento, Roseville, Dixon, Auburn, Vallejo, Grass Valley, San Juan and Galt.

FREEDOM OF THE PRESS

Col. Robert R. McCormick, editor and publisher of the Chicago Tribune and chairman of the committee of the American Newspaper Publishers' Association on freedom of the press, said last month in a public address that under the First Amendment of the Constitution the press, in his opinion, cannot be compelled to accept special government control.

Col. McCormick referred to the N. R. A. code proposed by the government for the press, and said that despite this newspaper publishers had signified a willingness to sign the code as the government drew it, with the single addition of a clause guaranteeing freedom of the press.

This, he said, the government will not agree to.

Col. McCormick spoke over station WGN and the WJZ radio network of the National Broadcasting Company.

"The law of nature," he said, "is not that tyrants make tyrants, but that tyranny makes tyrants.

"It is conceded that in phrasing the First Amendment to the Constitution that framers of the Bill of Rights had in mind every invasion that had already been made upon the freedom of the press, and realizing that the ingenuity of men in government is infinite, they did not confine their prohibitions to the evils that had gone before, but used language broad enough to include any effort that could be made in limit the freedom of utterance," he said.

"Yet no sooner had the Constitution and its amendments been adopted than Congress infringed upon that freedom, and prison, yea, torture, had to be endured to re-establish it.

"And all through our history in every generation efforts have been made to limit freedom of the press, and always they have been resisted successfully.

"The freedom of the press is the freedom of the American people. Circumstances have imposed upon the publishers of America the holy duty to preserve that freedom and hand it down to posterity."

WEEKLY COMMENT

By CHRISTIAN ANDERSEN

Zarathustra, one of the worlds great religions teachers, almost all of whose records have been lost, was born about 600 B. C. His name has been in use among religious devotees for many centuries. Nietche wrote a book entiled: "Thus Spoke Zarathustra." At present there is a religious society in the very modern city of Los Angeles who uses his name a great deal in their writings. This society call themselves the Mazdaznans and worship the ancient God Mazda the God of light. The man who is the spiritual head of the Mazdaznans is Ottoman Zar Adusht Hanish, and he claims to be a direct descendant of Zarathustra.

The Coptic monks of Egypt are supposed to have the most ancient and authentic religious records in existence. It is said that Christ was known to them during his early life.

A headline reads as follows: "ROOSEVELT BREAKINK POWER OF WALL STREET" * * * * signed "Lloyd George." He is most likly telling us. F. D. R. has still three years in office and from the way he is making things move, everybody by the end of his term will be eating regular. Long before then Wall Street may only be gnashing it's teeth and vainly.

There is one confection very much is use in Europe at this time of the year. In Denmark it is called Pepernodde. In Germany it is called Pfeffernusee. Both these words mean in English Peppernuts. They are about the size of a walnut and are made from flour, spices, sugar and other ingredients. They are most delicious.

We took our youngsters on a window shopping tour one night last week. It was not very long until we were looking as enthusiastically as the children and were loath to go home. Christmas time one needs a wishing well where a million dollars could be obtained, just to spend to see people happy.

The firemen will give their annual carnival dance on the 30th of December, the "greatest ever."

If a man must quench his thirst then that man by virtue of being a citizen of this country is entitled by constitutional right to do so and no questions asked. But at the same time I think he is entitled to buy The Legal Liquor at least at the same price as bootleg can Still be bought. The man who canturn his back on price and for His Country's Sake buy the legal liquor, is in my humble opinion A REAL PATRIOT. The bootlegger should not thrive long in this country.

DRIVE SLOWLY AT START

Driving slowly for at least twenty minutes after starting the motor, particularly in cold weather, will prolong the life of a motor, according to the Free Emergency Road Service of the California State Automobile Association. Lubricating oil will not circulate freely until it is warmed up. Consequently, cylinder wear is greater during the warming up period. Racing the engine to warm it up should be avoided at all times.

Mr. and Mrs. Aubrey Wisker motored to Sacramento Sunday evening.

Benefit P. T. A. Card Party Set For Tuesday

Plans are practically completed for the Parent Teacher Association car party in the Brand's Studio, at 2 o'clock tomorrow, Tuesday afternoon.

Anyone desiring card tables is requested to communicate with Mrs. Leland Smith or Mrs. Elza Kilroy.

Money derived from this benefit card party is to be used in the purchase of milk for undernourished children in the Washington grammar school.

There are now 53 members in the Nevada City Parent Teacher Association an increase of 25 members over last year. This increased interest in the P. T. A., work is most gratifying to the officers who have made every effort to make the association the success it is.

The first grade pupils captured the banner for the month of December with the most mothers in attendance at the meeting Friday.

A contest is on between the mothers in the P. T. A. and the loosing side is to give a party to the whole association.

BIT OF COMFORT FOR EDITOR RURAL PAPER

The rural editor went home to supper, very tired but with an unusual smile lighting up his poor old face. "Have you had some good luck at last?" his wife inquired.

"Luck! I should say so," responded the editor. "Old Squire Skinner, who hasn't paid anything on his subscription for 10 years, came in and stopped his paper."
